What is AVT Communities?

AVT Communities is an unlimited communications service committed to helping Municipalities connect with their residents and community stakeholders. **Think of us as your Municipality's Communication Team of expert social media managers, copywriters, graphic designers, and videographers. Our mission is to help your municipality share its story through outstanding digital marketing support and video production.**

We know most municipalities don't have a dedicated communications person, let alone an entire team. For those that do, they are pulled in so many directions making it challenging to develop and execute a communications strategy.

AVT Communities was created to be an **affordable** communication team alternative that provides reliable and creative storytelling unlike anything available in the municipal space.
